## TASK 1: WHAT IS A PRESSURE GROUP?

### ACTIVITY 1: WRITE A PRESS RELEASE FOR YOUR PRESSURE GROUP

#### TEACHER'S NOTES

The sample readings for Task 1 have each been written using extensive original quotes from five example pressure group.

In this task, students could work individually, in pairs or in groups, depending on how many are in the class. The texts should be distributed and read on an individual basis.

The students should then be free to exchange information on the five groups either in groups or on a whole class basis.

As more information is exchanged, students will be able to fill up the accompanying table and build an overview of each organisation.

The information gathered can be used in Task 2 when students decide on an issue for their own group.
